American Food Safety Institute
Sharon Kelly
One Green St.
Hulmeville, PA 19047

Dear Ms. Sharon Kelly:

Maricopa County Environmental Services Department recognizes and approves the National Assessment Institute (NAI/Experior) Food Manager Certification exam being used by your organization (The American Food Safety Institute - AFSI).

Individuals passing the NAI/Experior examination will qualify for a Maricopa County Foodservice Manager's License. Every establishment that serves food is required by Maricopa County Code to have a full time employee who is licensed by this department working for them by January 1, 2000.

Your company's experience in providing foodservice manager certification and assisting to educate managers through a 1 - day training course has a proven track record. The ability of ANSI to provide multiple language courses is yet another service you provide to food service managers in Maricopa County.

If one of your clients has questions concerning Maricopa County's Licensing and Approval procedure they can call the office at (602) 506-6970.

Sincerely,

A handwritten signature in black ink, appearing to read "David F. Ludwig". The signature is fluid and cursive, with a long horizontal stroke at the end.

David F. Ludwig
Environmental Health Division Manager
